

Summer - Autumn 2018

Café Sci

Cambridge

Grab a coffee and
a slice of science!

www.cafescicambridge.org

A lively season of events exploring the
latest ideas in science and technology.

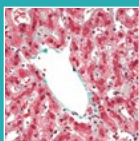

7pm at The Locker Café
54 King Street, Cambridge CB1 1LN

FREE event open to EVERYONE!

Brought to you by
Wellcome Genome Campus
Public Engagement

WELLCOME GENOME CAMPUS
**CONNECTING
SCIENCE**

JULY: Wed 11

THE HUMAN CELL ATLAS - REDEFINING HUMAN ANATOMY

Dr Laura Clarke, EMBL-EBI

We can now look at single cells in exceptional detail, enabling us to create a Human Cell Atlas. Hear how this allows us to navigate from whole organs to individual cells, redefining our understanding of anatomy.

AUG: Wed 8

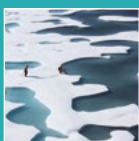

IDENTIFYING PREVENTABLE CAUSES OF CANCER: A CRUK GRAND CHALLENGE

Dr Sarah Moody, Wellcome Sanger Institute

Discover how this ambitious global project aims to identify preventable causes of cancer by looking at the 'fingerprints' that environmental and behavioural factors leave in DNA.

SEPT: Wed 12

CAN WE REFREEZE THE ARCTIC?

Professor Hugh Hunt,
University of Cambridge

How can we cool the planet if we fail to meet our CO2 emissions targets? Scary stuff - we need to be talking about it! Come and join the conversation.

OCT: Wed 17

IS CONSERVATION GOOD FOR YOUR HEALTH?

Rory Gibb, UCL

Could conserving ecosystems help to prevent future disease outbreaks? From bats and Ebola to malaria mosquitoes, we'll explore the latest research addressing this challenging question.

NOV: Wed 14

SO-CALLED ALTERNATIVE MEDICINE (SCAM)

Professor Edzard Ernst, University of Exeter

SCAM is popular, not least because consumers are being misled about it. Join us to discuss some of the many misunderstandings in this area.

Short talk | Interval | Discussions | Close 8:30pm
Limited seating. Come early to avoid disappointment.
